NEW TERM OF SCHOOL

SUPERINTENDENT R. D. WHITE GIVES INFORMATION TO PARENTS

The new term of the Glendale Grammar Schools will open on Monday, February 4, 1918. It is very important that every child should enter school on the first day and should thereafter be regular and punctual in his attendance. Any absence may be a serious menace to a child's standing in his classes. Also, since the state and county apportionments of funds are based upon the average daily attendance, absence on the part of the child means a direct financial loss to the district.

School Age

The legal age for entering school is six years. However an allowance of three months is made. This means that in order to enter the first grade a child would have to be six on or before May 4, 1918. No beginners will be admitted after the close of the first month of the term.

Kindergartens

Kindergartens will be opened at the Columbus Ave., Colorado Blvd., Broadway and Pacific Ave. Schools. The Columbus Ave. and Broadway kindergartens will each take care of two school districts. Columbus Ave., its own and the Central Ave. district; Broadway, its own and the Doran St. district. The law states the kindergarten age to be from four and one-half to six years. This law is interpreted to mean that the child will have to be four and one-half within three months of the opening of school, that is, on or before May 4, 1918. No allowance is made for over age. Any child who is six years old or older on the day the term begins will not be admitted to the kindergarten. Such child may of course, enter school if the parents so desire. In order that the parent may have a choice between the kindergarten and the school, the child must be between five years and nine months and six years old on the day the term begins.

Parents are advised not to send their children to kindergarten until they are at least four years and nine months old for the following reasons; first, we have a kindergarten course of only one year and if a child finishes that before he has attained to school age he will either have to drop out for a half year or take the same work over again in the kindergarten; second, a child of five will get much more out of the kindergarten work than a child of four and one-half.

Superintendent's Office Hours

For any further information call up the Superintendent's office between the hours of nine and four except on Saturdays and Sundays.

Telephones: Sunset, Glendale 593; Home 1363.

Districts

Parents are urged to study the district lines as given below and to send their children to the school in whose district they reside, on the first day of the term. Please note carefully also the grades that each school will enroll. These district lines are sub-

(Continued on Page Four)

HAZZARD LECTURE

The lecture to be given by Mrs. Jessica Hazzard under the auspices of the local committee, Council of Defense at the City Hall Tuesday morning from ten to twelve o'clock will concern the banana as a food and will include a demonstration of meatless dishes. The ladies of this locality are urged to attend and get the benefit of these demonstrations. There is no fee.

AT THE PRESBYTERIAN CHURCH

Dr. Ernest F. Hall will give his second talk on the "Lure of Africa" tonight at 7:30 in the Presbyterian Church, Broadway and Cedar. Everyone welcome. The class is free to anyone interested. Over ninety were present last night and fifteen stayed for the training class. Come and hear Dr. Hall once and decide for yourself whether you want to miss any of the other four classes on the "Lure of Africa."

VISITORS IN CALIFORNIA

Hon. and Mrs. J. W. White, of Norris, Colo., who are visiting in Southern California, were guests last week of Mrs. Adelaide Imler and Miss Cora Hickman of Palm Villa. Mr. White has a large ranch near Leadville and is extensively engaged in the feeding of sheep which he purchases after shearing time from the ranges and then fattens and markets them.

ATTY. SHAW EXPLAINS

MOVEMENT TO CONSOLIDATE GLENDALE AND TROPICO SCHOOL DISTRICTS

January 25, 1918.

Mr. A. T. Cowan,
Editor of Glendale News,
Glendale, Cal.

Dear Sir:—I have been asked, as one of the organizers of the recent successful movement for the consolidation of the Cities of Glendale and Tropico, and as one interested in the present efforts to consolidate the Tropico and Glendale City school districts, why the school districts were not consolidated when the Cities were united. As the matter seems to be one of general interest, I would ask you to publish this statement regarding it.

A school district is, in the eye of the law, an organization entirely separate and distinct from any city which may include the same or part of the same territory. Hence consolidation of cities does not necessarily have any effect upon the school districts. Whether it has any such effect or not depends upon the school law and not upon the law for consolidation of cities. Nothing that could have been done in connection with the proceedings for consolidation of the two cities would have changed or increased the effect of that consolidation upon the school districts. The school law makes some provisions as to the effect that change in city boundaries has upon school districts in the same territory; but these provisions as to cities of the sixth class—to which both Glendale and Tropico belong—are ambiguous and unsatisfactory. We have taken this matter up with the County Superintendent of Schools and the County Counsel, and they have informed us that in their opinion the two school districts will retain their separate existence, notwithstanding the consolidation of the cities, and that the only method of uniting them is to proceed under the provisions of the school law for consolidation of school districts. As they are the final authority in this County on school matters, we see nothing to do but accept their opinion and proceed accordingly.

The procedure for consolidation of school districts is quite different from that for consolidation of cities. No election is required, but petitions signed by a majority of the heads of families in each district must be presented to the Board of Supervisors, and the consolidation is made by order of that Board without an election. Signers of the petition need not be voters. Any head of a family may sign. Neither need a head of a family have school children. Any man who is married or has a family living with and depending upon him may sign. The law regards the husband and not the wife as the head of the family, whatever private arguments there may be upon that point. A widow who has children or other family dependent upon her may sign. It seems desirable from every point of view that the whole City of Glendale should be in one school district, and we have, therefore, started a movement in the Tropico District for that purpose, and the Glendale Federation of Parent Teachers' Associations have undertaken to circulate petitions in the Glendale District. As it will be necessary to obtain about 1600 signatures in Glendale and about 400 in Tropico, it is hoped that every head of a family to whom the petition is presented will facilitate the work of the canvassers by signing it without delay, so that the consolidation of the school districts may become effective as soon as possible.

Thanking you for giving this matter space, I am

Very truly yours,
HARTLEY SHAW.

IMPORTANT FACTS AND FIGURES

The number of women employed in munition factories has increased from 3,500 in 1910 to more than 100,000 in 1917, according to a report made to the National League of Women's service, and 1,266,000 women are engaged in industrial work which is directly or indirectly necessary to carry on the war.

Under the new food regulations Swiss people are allowed only one-fifth of a pound of butter per person per month.

Red Cross appropriations for work in Italy from November 1, 1917, to May 1, 1918, total $4,771,990.

The United States, importing before the war as much as $10,000,000 worth of aniline dyes a year, in 10 months of last year exported dyes valued at $12,500,000.

WEATHER FORECAST—Fair tonight and Tuesday. Frost in exposed places. Northerly winds.

GERMAN NEWSPAPER URGES REVOLT

SAYS KAISER IS GERMANY'S HANGMAN AND PEOPLE MUST REVOLT TO SAVE THEMSELVES

(Special Service to Glendale Evening News)

AMSTERDAM, January 28.—An open demand that the German people revolt to "save themselves" and reference to the Kaiser as "Germany's hangman" was made by the Deutsche Tages Zeitung in copies of that paper received here today.

PATROL VESSEL ON ROCKS

NAVY DEPARTMENT REPORTS LOSS OF AN AMERICAN PATROL IN EUROPEAN WATERS JANUARY 25

(Special Service to Glendale Evening News)

WASHINGTON, January 28.—An American patrol vessel operating in European waters ran on the rocks January 25 while driving through a heavy fog, the navy department announced today.

The vessel will probably have to be abandoned. There were no casualties, the report stated.

U. S. SOON IN THICK OF FRAY

CASUALTIES AMONG AMERICAN SOLDIERS IN ACTION PRESAGE COMING PARTICIPATION IN ACTUAL BATTLES

(Special Service to Glendale Evening News)

WASHINGTON, January 28.—That announcement of America's participaion in actual battles will be forthcoming soon is the belief expressed here today.

This is strengthened by the fact that several infantrymen the past week have been reported killed or wounded "in action," while Major General Leonard Wood and two members of his staff, Major Joyce and Lieut. Kilborn were injured in an accidental explosion which killed five French soldiers.

Where and how the accident occurred is unrevealed.

K. OF P. MAY INCREASE RATES

DECISION OF SUPREME COURT IN INSURANCE CASE REVERSES FINDING OF LOWER COURT

(Special Service to Glendale Evening News)

WASHINGTON, January 28.—The Knights of Pythias Lodge was allowed to increase its insurance rate by a decision of the Supreme Court handed down today. This decision reversed the decision of lower courts.

SECRETARY BAKER ANSWERS CRITICS

SAYS EVERY MAN IN NATIONAL GUARD AND NATIONAL ARMY CAMPS READY FOR FRANCE

(Special Service to Glendale Evening News)

WASHINGTON, January 28.—"Every man in the 32 National Guard and National Army camps is ready now to be sent to France whenever there is need," declared Secretary of War Baker today, striking back at critics of the war department.

In a sweeping statement before the Senate Military Committee Secretary Baker showed the great steps that have been taken to win the war, some of which were necessarily sudden and hence without preparation.

In answering the critics of the war department, Secretary Baker declared:

"Lax medical service in the camps will not be tolerated.

"Three officers have been courtmartialed and dismissed from the army for negligence in attending the sick.

"General Pershing himself O. K.'d the modified Enfield rifle."

"A great army was called out before guns were ready for them on the earnest recommendation of Major General Wood, who declared that the men first needed other training besides that with guns."

"Every man now in France owns a gun and was trained to use it."

"There are many times as many men now in France as originally planned for this date."

"Gen. Pershing himself decided against the Lewis machine gun for land work."

"On November 20, 140 machine guns were sent to each training camp."

"Every man in the 32 training camps is ready for service in France."

"Our army in France—now large and soon to be much larger—is to have the type of artillery it wants and needs."

"Three hundred 3-inch anti-aircraft guns will be turned out monthly in this country before another year."

"Official reports show that camp hospitals are equal to civilian hospitals. All are in splendid shape."

"Tonnage is the crux of the whole situation. This country is using French artillery to save ships for other supplies."

"The allies urged that we send troops before anything else, saying France and England could supply us with artillery."

Secretary Baker declared that the "impression has been spread abroad that the war department has fallen down in the crisis." To correct this impression it is vitally necessary that the country be informed as to just what has been accomplished, he said.

GOING OVER THERE

DR. E. H. WILLISFORD WRITES ON THE EVE OF SAILING FOR FRANCE

"The coldest day in 37 years, yesterday was the coldest day ever known in the history of our city" were the words that greeted me as I stepped from my train when I arrived in New York City, Monday morning, December 31. Some change from the 80 or more climate of Southern California which I had left a few days before.

The trip from Glendale to New York was uneventful except that east of Chicago, trains were very irregular and late. On this account I missed the Buffalo connection and instead of a day had less than two hours with my brothers and foster-mother. This was a great disappointment for I had not seen my relatives for over ten years.

The delay at Buffalo permitted me an opportunity to visit Niagara Falls. I had visited this great wonder of nature several times in the good old summer time, but never before in the winter. It was a most fascinating and entrancing sight. Great mountains of ice at the foot of the falls, giant icicles on the overhanging cliffs. Most delicate frozen spray covered the trees and shrubbery. Clouds of mists rose from the falling waters, to a height of hundreds of feet. It was a scene not soon to be forgotten.

Arriving in New York I at once reported to the officers of the International Y. M. C. A., 124 East 28th street. Here everything was on the rush. Committees had to be met and examinations taken. The "Y" goes very thoroughly into all matters pertaining to a person's character, education, training, experience, and fitness for the work. Especially is this true of men who are to go "over sea."

Soon I was holding in my hand a card signed by Mr. Towson, associate with Mr. John R. Mott, assigning me as a "general secretary" to work in France. Then to the doctor for the physical examination. Here again yours truly got safely by with a good margin to spare.

Next came vaccination for smallpox and innoculations for typhoid, three of these, some days apart. The job was well done, for I have had a pair of arms! Still I have gotten along famously. No one can go abroad without a passport, so I tackled that job—a lot of details and red tape. The passport is issued by the State Department at Washington. This then must be vised by the British and French Consuls. All this takes time, patience and several small fees. To facilitate the granting of the passport I took a trip to Washington. When I asked for immediate action the "clerk" looked surprised and said "several days." "This afternoon I must have it," I said. "Impossible, for Secretary Lansing must siign the passport," was the reply. A call on Congressman C. H. Randall, resulted in a letter to Secretary Lansing. This letter gave me immediate admittance to the office of the Secretary of State, where a Mr. Crane gave me all courtesy and help. As the Bureau of Citizenship were unable to get the papers through I had to wait until the next morning, when a 'phone from Congressman Randall to the State Department produced the passport on the designated minute. Nothing like a congressman when in need in Washington.

A short time was spent visiting the capitol, and Congressional Library.

The Y. M. C. A. provide the men with two uniforms and an overcoat. One of the suits is like that worn by army officers. These uniforms are not supposed to be worn until we sail. You would hardly know your pastor in his new clothes. Some say he looks quite military.

An allowance is made to each man with which to purchase steamer

(Continued on Page 4)

REGISTRATION BOARD NOTES

Routine work of going over Questionnaires and writing in the recommendations of the Board after all the facts are in is occupying the time of members of the Exemption Board, also answering the interrogatories of persons who call for information.

Physical examinations were continued this morning by Doctors Henry R. Harrower, H. R. Boyer, and J. L. Flint of Glendale, and Doctors Smith and Scott of Los Angeles.

Mr. Lanterman says the reports of the Medical Examining Board have not yet been reviewed by members of the Exemption Board and he can therefore give no information as to how these registrants are averaging physically as compared with the selects previously examined.

The physical examinations will probably be continued tomorrow.

MUSICAL PROGRAM

JUNIOR ORCHESTRA IS FEATURE OF CHILDREN'S RED CROSS BENEFIT

With the serene busts of Lincoln and Washington looking down upon the stage and the stars and stripes festooned above it, a patriotic entertainment was put on at the High School by pupils of the Colorado and Broadway Schools Friday evening and Saturday afternoon which gave a great deal of pleasure to every patron whether child or adult and which was highly creditable to the teachers and children who produced it. It was a composite effort and each teacher gave the credit to her associates, so the glory will have to be shared. There were packed auditoriums at each performance. Friday eve was fathers' and mothers' night. The Saturday entertainment was a children's matinee.

Music was a dominating feature and Miss Marguerite Weatherby had a chance to display the fine work she is doing with the children of the Glendale schools. Her Junior Orchestra which played the opening and the closing numbers is quite wonderful. Most of the members are in the fifth grade, but any child from the kindergarten to the sixth grade is eligible. This is their first term of work. They meet for instruction but once a week and have no outside training, but they played astonishingly well and if they continue as they have begun, the High School Orchestra will have to guard its laurels. The children who compose the orchestra are:

Broadway School—Richard Case, violin; Kenneth Lee and Robert Burns, trombones.

Colorado Boulevard.—Margaret Hardin, piano; Lavinia Thede, William Buckley, Marcella Webb, Carl Garben, Archie Neil, violin.

Columbus Avenue—Dallas Kallbaugh, drum.

Pacific Avenue—Edward Perkins, Clyde Travis and Leslie Troncier, violin.

A flag drill by eighteen little girls all dressed in white was a very pretty number, the drill being preceded by stories of the origin of the Stars and Stripes, of the first flag made by Betty Ross, and of the adoption of the American Eagle as a national emblem.

Then was played as a violin solo the ever beautiful "Flower Song" (Lang) by William Buckley, one of the little orchestra players and very well played, too.

The Indian club drill led by Jane Butterfield, was a spirited number which everybody enjoyed.

Then "Old Glory" was recited by Mary Anderson with considerable of the dramatic fire of her famous namesake.

The delightful way in which a class of primary pupils executed a series of exercises at the word of command of Miss Pierce, their instructor, delighted the audiences and won great applause.

Ruth Morton played quite beauti-

(Continued on Page 4)

POST AND CORPS MEET

The all-day meeting of the N. P. Banks Post and Corps at G. A. R. Hall last Friday, like all such meetings, was immensely enjoyed by all members. A fine dinner was served at noon, plates being laid for seventy-five. A program followed in which the leading patriotic address was made by Prof. C. E. Houdyshel of Glendale Union High. An excellent talk was made by Rev. Crandall of the West Glendale M. E. Church, and a greeting and talk given by a visiting comrade from Peoria. The post quartet consisting of Comrades Clark, Barrett, Goss and Taylor sang "Tenting on the Old Camp Ground" and as usual won tremendous applause. Four new members were enrolled on the Post roster as follows:

O. N. Denison, Company D, First Michigan Light Artillery,

Skillman Houdyshel, Company G, 142d Indiana Infantry,

William Chappell, Company G, 150th Illinois Infantry,

A. J. McElroy, U. S. Battleship Mississippi, U. S. N.

Following the program a meeting of the W. R. C. was held at which routine business was transacted.

PIONEER THIMBLE CLUB

The Pioneer Thimble Club was entertained last Wednesday for an all-day meeting by Mrs. Pierre V. Potter of 1541 Pioneer Drive. It was a quilting bee and a cafeteria lunch was served at noon. Marigolds featured the floral decorations. Guests who participated were: Mesdames C. M. Van Dyke, A. R. Chappell, R. T. Hoagland, I. D. Vinton, R. E. Fry, John Andree, Herbert Whitaker, and Mrs. E. L. Fees of Monrovia.

GLENDALE, CALIFORNIA, MONDAY, JANUARY 28, 1918.

MOVING RIGHT ALONG

Unless the senate should fail to recognize the signs of the times a second constitutional amendment will be knocking presently at the doors of the state legislatures. Right on the heels of national prohibition will come woman's suffrage, the provision for which has now passed the house of representatives.

They are a well matched pair, those amendments, and we imagine they will be of great help to each other as they make their round of calls at the state capitals. That they should come arm in arm is a novel and somewhat surprising circumstance. Either of them singly would be enough to strike terror to the cohorts of the old order. Together they probably will make it a rout. The swiftness with which suffrage is covering the final stages of its long journey dazes us a little, just as prohibition did in its last lap, but, after all, we ought not to be struck of a heap. It has been obvious for a long time that it was bound to come.

The next step for the women after they get their vote, will be to show the men how to use theirs. When that last lesson is imparted perhaps we can call it with greater propriety equal suffrage. —Monrovia News.

SPIES IN AMERICAN ARMY

Most difficult to detect of all spies is the man in uniform. The penalty is death, of course, but this never has deterred the master spy. Some of them are now foolishly relying on the theory that America is too good natured to execute a spy even if found in its own army or navy.

Thus far there have been a few instances of men who impersonated officers. These have proved to be crooks and swindlers intent on fraud and robbery. But some real spies are believed to have enlisted in the American army. Even persons who qualified for commissions through the officers' training camps have been suspected of other than patriotic motives. In cases where investigation has not brought evidence sufficient for severe punishment those whose loyalty has been doubted were ordered into inactive service.

Curiously enough, fewer complaints of enemy activity have come from the American cities where German colonies are located than from cities where other large foreign elements reside. This is attributed to the fact that the American citizens in the first mentioned communities have since the outbreak of the war been especially watchful, and also to the fact that the German-Americans, most of whom have pledged their allegiance to their adopted country, omit no opportunity to demonstrate their Americanism.—David Lawrence in Saturday Evening Post.

WASTE IN PUBLIC INSTITUTIONS

The fact that "wilful waste works woeful want" is more readily taught to the individual consumer who pays the bills for his own wasting than to the public's employe. The need for saving food has been grasped by American homekeepers the more promptly because of the prices of food. But in public offices and institutions this lesson must be emphasized with official prohibitions. The rapid development of great natural resources in America, it is easily seen, has bred a wasteful habit that it requires a great war to root out. When one citizen secures foraging privileges, others demand an equal license. "If the rest are getting it, I want my share," is a familiar cry. If the self-denial forced by this war shall arouse in America the spirit of conserving natural resources, this alone will in time pay all the material expense of the war.—Minneapolis Journal.

SCHOOLS SHAPE WORLD POLITICS

According to former President Taft it is the school system of a country that shapes its destinies. In a speech before the American Society of Mechanical Engineers he said that it was the school system of Germany that was responsible for the present war. There is a good deal of sound philosophy in that. Children that are educated in certain doctrines grow up to admire and fight for them. Mr. Taft does not think that there are enough men in Germany who are lovers of liberty to influence that government, and so he believes that the overthrow of imperialism must come from complete success in the war on the part of the allies. The school system of the United States is what shapes its policy.—Omaha World-Herald.

UNIVERSITY FARM PRODUCES CROPS FOR WAR

The University of California Farm at Davis is contributing its share to the production of foodstuffs needed in the present war emergency. According to a report just issued by Professor H. E. Van Norman, Dean of the University Farm School, 1054 tons of hay (principally alfalfa) were produced in the year 1917, 747 tons of silage were cut and stored, 68.18 tons of barley and 44.8 tons of milo were harvested as grain, and 36.5 tons of pumpkins were stored for winter use.

There are eight silos on the farm, so that the livestock can be supplied with succulent feed the whole year 'round.

HOW DEFEAT WILL BENEFIT THE GERMANS

From our shores this gospel of the man of Galilee and this gospel of our national freedom have gone forth to every land. To our shores have come lives from every nation to be here fused into one national life and to add thus to our ever-growing strength against this day when, for all the peoples of the earth, the divine cause of humanity is to be won or lost.

In the ranks of those who carry our country's flag are men of every land and blood—French and English and German and Dutch and Spanish and Armenians and Chinese and Japanese and Africans and Indians. There is scarcely a race on earth that is not represented in this army of liberty.

Our army is the army of this nation, but it is more: It is the army of the liberty loving world. Its blood is the blood of humanity, the humanity of Jesus, the humanity for which Jesus lived and died.

But Jesus said "Love your enemies."

Well, this nation sings no hymn of hate. The spirit of those who will carry the Stars and Stripes to Berlin is not the spirit of hatred. When the well-loved and faithful dog of the household goes mad and menaces the lives of friends and neighbors, it is not hatred that fires the bullet to end its madness. Because this "mad dog of Europe" must be stopped in his career of death does not mean that hatred has raised the army that will accomplish the necessary end.

"Bless them that curse you. Do good to them that hate you," said Jesus.

Well, the blessings of our cause in victory will be to those men who face our soldiers in battle as well as to those brave ones in whose support our men are fighting. The good of liberty will be for the German people as well as for all other peoples of the earth. No greater good could come to the people of Germany who are fighting now the battles of their kaiser than the defeat and utter annihilation of the spirit of that ruler who drives tehm to the battlefield.—Harold Bell Wright in American Magazine.

"LEST WE FORGET"

"The shouting and the tumult dies—
The captains and the kings depart—
Still stands Thine ancient sacrifice,
An humble and a contrite heart.
Lord, God of hosts, be with us yet,
Lest we forget—lest we forget."

Lest we forget the innumerable dead who have nobly died, and the host of the living who with a just and common sense of love and honor have sent them forth to die. Lest we forget that we and our allies have not been above reproach; that there were signs of decadence among us—in the growing love of ease and idleness, in the tango dance of literature and lust, in the exaltation of pleasure, in a very definite degeneration of our moral fiber.

Lest we forget that our spirit is being purified in the furnace of war and the shadow of death. Do you remember the protest of those poilus when some unclean plays were sent to the battle front for their entertainment?

"We are not pigs"—that was the message they sent back.

Lest we forget that the spirit of man has been lifted up out of the mud and dust of the battle lines, out of the body tortured with pain and weariness and vermin, out of the close companionship of the dead into high association on the bloody altar of liberty and sacrifice.

Lest we forget that the spirit of our own boys shall thus be lifted up, and our duty to put our house in order and make it a fit place for them to live in when they shall have returned to it from battlefields swept, as a soldier has written, by the cleansing winds of God.—Irving Bacheller in the Outlook.

Just a Few Good Used Studebakers

At prices that will make you ACT!

We're conducting our annual clean-up in preparation for the coming season and will pay you handsomely for helping us clean house.

A few good used Studebaker cars are still on our floors. Cars that are in exceptionally good condition.

Mechanically perfect. Paint and upholstery almost like new. Some that can scarcely be told from cars just out of the factory.

There's no excuse for any one to be without the joys, comforts and conveniences of motoring. No reason for buying a cheap, cramped, unsatisfactory car when you can now get a powerful, luxurious, stylish Studebaker car that you'll always be proud of at a ridiculously low price.

But there are just a few of these cars and they won't last long. Come in today and make sure of yours.

NOTICE OF THE TIME AND PLACE OF THE HEARING OF ALL PERSONS FEELING AGGRIEVED BY ANY ACT OR DETERMINATION OF THE SUPERINTENDENT OF STREETS OF THE CITY OF GLENDALE IN RELATION TO THE IMPROVEMENT OF A PORTION OF MILFORD STREET.

Public notice is hereby given that the Board of Trustees of the City of Glendale will on the 31st day of January, 1918 at 8:30 o'clock P. M., take up and hear any and all protests against any acts or determinations of the Superintendent of Streets of said City in relation to the improvement of Milford Street from Columbus Avenue to Pacific Avenue, as more fully described in Resolution of Intention No. 961, adopted the 19th day of July, 1917, and will at said hearing take up all matters and acts protested against in that certain protest dated December 28, 1917, and filed in the office of the City Clerk on the 3rd day of January, 1918. Said protest being the protest against the acceptance by the City of Milford Street between Columbus Avenue and Pacific Avenue as contemplated under aforesaid Resolution of Intention No. 961 and Resolution of Award of Contract No. 969 of the City of Glendale.

J. C. SHERER,
City Clerk of the City of Glendale.

Personals

Mr. and Mrs. J. F. Proctor, former proprietors of Hotel Tropico, are now residing in Los Angeles at 756 Carondelette street.

Walter W. Jones of 1506 Vine street is the Mr. Jones who has enlisted in Company A, of the new National Guards of California.

Tuesday will be Reciprocity Day at the Pasadena Shakespeare Club. Mrs. Mattison B. Jones of Glendale, will be one of the speakers, her theme being "The Future Woman."

Mrs. I. D. Vinton of 1537 Pioneer Drive, Mrs. Pierre V. Potter, of 1541 Pioneer and her daughter Dorothy, spent the day at Artesia as guests of Mrs. George Jago, a former resident of Glendale.

The Jolly Thirteen Club will meet Wednesday at the home of Mrs. Charles L. Grover, 1516 Myrtle street. A cafeteria lunch will be served at noon and the afternoon will be devoted to needlework and visiting.

Elwood Ingledue and Storrs Beckman took a week-end mountain hike to Switzer's camp where they spent Saturday night, then on to Mount Lowe, returning Sunday night. They hoped to find snow, but were disappointed.

Friends of Dwight Stephenson were delighted to have a week-end glimpse of him as he was given a brief leave which he spent with his father and mother on Central avenue. He arrived Saturday night and had to leave Sunday evening.

Miss Doris Ingledue of 725 West Third street and Miss Eunice Peart, daughter of J. G. Peart of 1417 Sycamore avenue, who spent the week-end in Glendale and have been studying hard in preparation for final examinations, are returning to U. S. C. Tuesday morning.

Miss Cora Hickman of Park Avenue, recently returned from a trip to the Imperial Valley where she found everything very prosperous and crop preparations going forward on a big scale. She reports that many of the alfalfa fields which have become weedy have been leased to Japanese gardeners who are willing to pay a high rental for them on a three-year lease. They turn under the alfalfa and plant field crops. Even now there are great plantations of potatoes, cantelopes and tomatoes protected by white and brown paper caps that make the fields look like miniature camps.

RED CROSS ITEMS

The Glendale Chapter has had a call from National headquarters for helmets for the men on destroyers, submarines and in the aviation corps.

Mrs. George D. Carter, Chairman, and her assistants Mrs. H. E. Bartlett, Miss Ainsworth and Miss Joslyn, will be at the headquarters of the Knitting Department this afternoon to give out yarn. Last Thursday, the day after the new shipment of yarn was received, 693 hanks were given out to knitters who applied for it.

As there is considerable complaint about the yarn being dirty and soiling the hands of knitters, Mrs. Carter is recommending that it be washed in soapy hot water and rinsed with luke-warm water and soap before being wound into balls.

Needles for knitting socks are now in supply at the Department and directions for knitting the coarse yarn will be given out this afternoon.

Two new cupboards have been installed at Red Cross headquarters, one for the Yarn Department, the other for miscellaneous supplies for the Hospital Garments Department under Mrs. Lawrence Ellis. A supply of thread, buttons and unbleached muslin came in for this department this forenoon. The usual Monday workers are expected to be on hand this afternoon to operate the sewing machines.

Mrs. Boothby is the instructor in the Surgical Dressings Department today. Three workers were busy on compresses this morning, viz. Mesdames McElroy, Walker and Masak.

Seventeen new members were enrolled by the Glendale Chapter last week.

WORK OF TROPICO AUXILIARY

The report presented by the Secretary of the Tropico Red Cross Auxiliary at the monthly meeting last week contained some interesting statistics of the work of the chapter which is credited with the manufacture of 580 articles for the Red Cross which include:

17 dozen napkins;
7 dozen tea napkins,
7 dozen handkerchiefs,
4 dozen pillowcases,
6 dozen sheets,
18 shoulder wraps,
15 ambulance pillows,
4 dozen hospital shirts,
7 pairs of pajamas,
180 knitted garments turned in to the Los Angeles Chapter,
20 sweaters given by private parties for Tropico boys.

The knitted garments included 100 pairs of socks.

The report showed 304 memberships which will expire June 1st, and six renewals of membership.

The total purchasing credit with the Los Angeles chapter has been $932.37 of which $300 is still available. This credit includes $100 which the Tropico Auxiliary, in common with other auxiliaries, received as a Christmas gift from the Los Angeles Chapter.

The receipts of the Red Cross bazaar when all stock was disposed of totalled $300.

DISCUSS TRAFFIC PROBLEM

On Monday evening, January 21 in response to an invitation by the Board of Trustees from 20 to 25 automobile dealers and managers of service stations met at the city hall to consider what would be for the best interests of the city in the way of the enforcement of traffic regulations. Since the passage of the traffic ordinance several months ago there had been some dissatisfaction on the part of automobile dealers and drivers as to the method of enforcing the ordinance and this meeting was held Monday evening for the purpose of the Board of Trustees getting suggestions from citizens as to the most satisfactory way of enforcing the ordinance.

The visitors were quite decided in their opinion that the way the enforcement had been conducted was not giving the best results and believed that the question of controlling speed on the public thoroughfares could be handled only by getting the people educated as to the importance of being careful drivers. Those in attendance who took very active part in the discussion in the way of answering questions and giving their views on traffic conditions were Jesse E. Smith of the Ford agency, J. G. Hunchberger of the Buick agency and Wallace Tupper, operator of the Glendale Auto Machine company. Mr. H. M. Butts of the Monarch company who comes in contact with many automobile owners and drivers was also present.

J. S. Thompson, president of the Board of Trustees stated that it was quite essential that a thorough understanding of traffic matters be reached between the city officials and the dealers, that the very best results may be obtained. He said the present motor vehicle act applies to all cities of the sixth class as well as to the unincorporated territory of the counties throughout the state and that the law provides a general speed limit of thirty miles for the highways and boulevards of the state. It also provides that cities may reduce that speed limit within certain districts by local ordinance but prescribes the specific speed limit which may be enforced, viz: in closely built-up residence districts 20 miles per hour and in certain designated business districts 15 miles per hour. The city of Glendale has taken action under the provisions of the state law to create a business district including that portion of Brand boulevard from between the north line of Second street to the South line of Colorado street and that portion of Broadway between the west line of Central avenue and a short distance beyond Glendale avenue, also one block of Glendale avenue between Broadway and Third street. The question of what speed limit shall be between this district is not for the city of Glendale to say for the state law says the speed limit shall be 15 miles per hour.

It was suggested by the dealers that suitable signs be posted on the streets requiring a reduction of speed that drivers may be warned as to what is required. In addition to these suggestions the dealers seemed to favor a persistent method of educating the drivers to use caution. The outcome of the meeting was very satisfactory and it would seem that there will be an understanding between the trustees and the dealers to work for the mutual benefit of all citizens concerned as to the enforcement of traffic rules.

STUDYING PSYCHOLOGY

The German government, realizing that it doesn't thoroughly understand the peculiar mental processes of other nations, and feeling that it would be well to understand them for strategic reasons, has gone about the matter in a typically German way. There has been established at Berlin a bureau of enemy psychology.

It will be the solemn purpose of this bureau to discover what the kaiser's enemies are really thinking, and why they are thinking it. The experts will doubtless investigate neutral mentality, too, seeing that it's pretty hard to distinguish between neutrals and enemies, and the one class is always slipping into the other.

It's an interesting procedure. But it is hard for an outsider to see what good it is going to do. Very likely by the time those German professors have collected and sifted their data and formed their conclusions the war will be over. And if they do succeed in finding out something about non-German minds before peace comes, how can they ever get it into the heads of the Prussians militarists, who are managing the war?

Along with their study of foreign minds, perhaps they ought to study German minds. But let's not insist on that. It would be too schrecklich a thing to ask the Prussian mind to investigate itself.—Redlands Review.

SATAN'S WILES

CAN NOT PREVAIL AGAINST THE CHURCH OF CHRIST SAYS PASTOR RITCHIE

Reading to his congregation the twelfth chapter of Revelation, Pastor Alexander Ritchie, in speaking to a large audience at the Glendale Seventh-day Adventist church, Third and Isabel streets at the regular service last Saturday morning, said this is a narrative of the church of Jesus Christ, written at the direction of God himself. "It is worthy of our close and constant study," Mr. Ritchie said. "The great facts in the history of the church of Christ will be found briefly given in this chapter.

"A good, pure church, holding the pure doctrines of the Bible, is here represented by a good woman, and an evil church, which practices and teaches corrupt doctrines, is represented by an evil woman. A dragon is described, having seven heads and ten horns, which the same chapter defines as 'that old serpent, called the Devil and Satan, which deceiveth the whole world.'

"We are not to understand from this that the devil himself has seven heads and ten horns, for the chapter is dealing in symbols. The dragon himself is a symbol, and so are his heads and horns, which represent the mighty governments of the world, through which, in past ages, Satan has operated against the church of God.

"Satan was once the mightiest angel in heaven, but because of his might, his glory and his personal beauty, he became ambitious to sit in the seat of God, and rule the universe. He started rebellion in heaven, and set up warfare against God. 'And there was war in heaven; Michael (Christ) and his angels fought against the dragon; and the dragon fought and his angels, and prevailed not; neither was their place found any more in heaven. And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world;' he was cast out into the earth, and his angels were cast out with him.' Revelation 12:7-9.

"Now Satan could not have been cast out into this world before it was created, and we know that he tempted our first parents and brought sin and woe upon the earth. This warfare must have taken place about the time this earth was made.

"When Christ came to pay the redemption price of his own life for man, again there was war; this time not in heaven, where God dwells, but here. We are told that Satan is 'the prince of the power of the air.' We also read that God 'spared not the angels that sinned, but cast them down to hell.' The word 'hell,' here given, reads 'tartarus,' in the original language in which the words were written, and 'tartarus' means the atmospheric regions which surround this world. This then is Satan's home. With the mighty fallen spirits who followed him in rebellion he goes to and fro in the earth, coming to human beings to whisper to them his temptations and allurements.

"Satan tempted Christ, offering Him all the kingdoms of the world if the Saviour would but serve the devil. But the Lord spurned this and every other temptation. He said, 'the prince of this world cometh and hath nothing in me.' When Christ ascended, following his resurrection from the dead, Satan lost his right even to visit the courts of heaven.

"Debarred from the realms of glory, and with Christ beyond his reach, the devil turned his persecutions against the church of Christ on earth. He has not yet appeared to human vision. He does not enter a church and say, 'I am the dragon, the devil; look out for me!' He does not mind at all if some people believe he doesn't exist. But he delights in luring men to destruction, and so long as he can continue that work he is well pleased. While he does not appear personally, Satan does work through his agents.

"The seventeenth verse of this chapter tells us the dragon not only persecuted Christ, but also the 'remnant' of the church, 'which keep the commandments of God and have the testimony of Jesus Christ.' We read in Revelation 19:10 that 'the testimony of Jesus is the Spirit of Prophecy.' A remnant of a bolt of cloth is the very last small piece. The 'remnant' of Christ's church is that part of it living at the end of time, and it will be found keeping every one of God's commandments, and having the gift of the Spirit of Prophecy in its midst, according to the Bible statement I have just read."

CARD OF THANKS

We wish to express to the many friends who have helped us to bear the great sorrow of losing our beloved son and brother, Lawrence Davis, some sense of our grateful appreciation of all they have done in giving their sympathy, their kind service, and the beautiful flowers which were brought as tributes of affection and respect. Words are not adequate but we wish to thank them and to let them know we are deeply sensible of their kindness.

GOING OVER THERE

(Continued from Page One)

trunk, blankets, shoes, poncho, rubber boots, mess kit and many other necessary things. Men going "overseas" are spending from $25 to $100 or more of their own money for extra and almost necessary things.

There seems to be no limit to the articles which one feels like getting. Then you should take some extra insurance, the Association pays the extra war risk, but you must pay the premium.

It is now Tuesday evening, Jan. 15th. Our ship was posted to sail last Wednesday and each day we have to get bag and baggage ready only to be told, "Not today." Shortage of coal is the reason given for the delay. Report is circulating that the vessel leaves at 7 o'clock tomorrow morning. With many of our men I shall stay on the vessel tonight. I am in a three-bed cabin—fine roommates, one of whom is in charge of the party. During our voyage we shall have four lessons or lectures a day, one of which will be in French. Soon hope to be able to talk in French.

Often I have thought of you—the Sunday School, the church, the C. E., the Auxiliary, the Missionary Society, the Brotherhood, the prayer meeting. I do hope that all will go well; I am sure that it will. So glad that Rev. W. J. Marsh is to be your acting pastor. Now everyone of you do all you can to help him. I must now close so as to have this letter go off the vessel tonight.

Goodbye and God bless you all,
Your pastor,
E. H. WILLISFORD.

MUSICAL PROGRAM

(Continued from Page 1)

fully as piano solos, one of the "Tales from Hoffman" and "A Twilight Reverie" by T. L. Guy.

The climax of the show and the special delight of the children was the cantata "The Toy Shop," a gay little musical skit opening with the calling of the fairies by a lovely little Puck in the person of Arline Yeakle. Then the fairies broke into a toy shop and woke up the sleeping dolls who proceeded to entertain the fairies with choruses and some beautiful dancing by Miss Lois Naudain (the French doll). In the midst of it the little rag doll (Mary Brooks) ran wild and had to be put to sleep with a lullaby; and a lot of fun for the children was made by the antics of Archie Neil and George McClammy who were Jacks in the box.

Shirly Chase, very pretty in a flowered gown and floral wreath recited "Apple Blossoms" and for an encore gave very effectively in a jumper costume the so different "Prayer for Jim Barnes."

The final orchestra number was preceded by a chorus of beautiful patriotic songs ending with the ever-popular "Keep the Home Fires Burning."

Mrs. M. O. Ryan, principal of the Broadway school, thanked the audience at the close of the matinee for the splendid attendance and expressed the conviction that the receipts would be ample for the Junior Red Cross fund the schools were striving to raise.

It was certainly a good show and one which was very creditable to the youngsters and to the teachers who drilled the children among whom should be especially mentioned Mrs. M. O. Ryan, principal, Mrs. Salisbury, and Miss Ruth Pierce, Miss Watanan and Miss Speik of the Broadway school, Miss Marguerite Weatherby, supervisor of music in all the schools, Miss Ida Waite, principal, Mrs. Marie Pierce and Miss Ethel Chase of the Colorado Boulevard school, though all the teachers worked and contributed to its success.

THE SMILEAGE FUND

Not many citizens of the United States yet know just what is meant by "the smileage fund" and that Glendale may be speedily informed the explanation is here given that a Military Entertainment Council has been appointed by Secretary of War Baker to have general charge of the work of providing entertainment for the soldiers and sailors of the United States. The following persons constitute the Council:

James Couzens, Detroit, Chairman, Capitalist.

Asa G. Chandler, Atlanta, Manufacturer and Banker.

Mrs. Josiah E. Cowles, Los Angeles, President General Federation of Women's Clubs.

W. R. Dawes, Chicago, Banker.

James A. Flaherty, Philadelphia, Supreme Knight, K. of C.

Dr. Frank W. Gunsaulus, Chicago, Minister and Lecturer.

Hon. Myron T. Herrick, Cleveland, Former Ambassador to France, ex-Governor of Ohio.

Major Henry Lee Higginson, Boston, Lee Higginson & Co., Bankers.

Otto H. Kahn, New York, Kuhn, Loeb & Co., Bankers.

Mrs. Howard H. Spaulding, Jr., Chicago and Washington.

Frank W. Woolworth, New York, Frank W. Woolworth & Co.

Two conferences attended by citizens from twenty states have been held, one in Denver and one in Washington for the purpose of making plans for meeting the responsibilities placed upon the Council by the War Department in co-ordinating the activities of all organizations engaged in furnishing professional entertainments for soldiers and sailors in cantonments and encampments.

The Council became convinced that $1,000,000 would be needed to effect this co-ordination and the operation of the Liberty Theatres, Liberty Tents, and Auditoriums already erected in the cantonments and larger encampments and which are being provided in other places where army and navy boys will be stationed. This proposed fund is known as "The Smileage Fund," and the drive which is being made to secure it is called the "Smileage Campaign."

At these camp theatres the Military Entertainment Council proposes to present—

Broadway companies in the best theatrical successes of the season;

The best musical and vaudeville programs obtainable;

Lectures of the highest excellence;

Amateur performances by the men themselves.

The cost of booking such attractions would ordinarily be prohibitive but inasmuch as the government provides the theatres, the light, heat, etc., the performances have been reduced to a cost of 10c to 25c a seat. But even these sums are found to be beyond the reach of many boys who are sending home practically all of their pay. For the benefit of such the Council has originated a type of book tickets that friends or relatives of a soldier may send to him at the front. These are called "Smileage Books" and are made up of coupons like the mileage books of railroads.

The need for these camp entertainments was forcefully set forth by Raymond B. Fosdick, Chairman of the Commission on Training Camp Activities at one of the conferences in which he said:

"I remember standing on the streets of Columbus, shortly after Villa had devastated that village, watching our 5,000 soldiers come over the railroad tracks into town in the evening.

"There was absolutely nothing for them to do there—no movies, no libraries, no place to write letters, no homes to which they could go—nothing but saloons and a well-organized red light district.

"In this war we are driving those vicious agencies out of business and setting up clean entertainment in their place. This has a direct bearing upon the health of our army and is an absolute necessity in maintaining the morale of our men."

"The work that you have magnificiently undertaken is work for the Government. It is official business, the responsibility for which has been placed upon you who are here today. The responsibility is solely yours; also the glory and honor. And we know that you will carry our mutual plans through to a splendid success."

MOTION PICTURES SHOW HOW WORK OF BOYS INCREASES MEAT SUPPLY

To help increase the pork supply the Department of Agriculture has released to motion picture theatres, through one of the large companies, a film showing the work of the boys' pig clubs which the department is organizing in all parts of the country. The film shows methods of instructing farm boys who have joined the agricultural clubs how to raise better pigs and the methods used by club members in carrying out instructions.

The first pig club was organized in Louisiana in 1910. Now approximately 45,000 members are enrolled throughout the country. Clubs in several States are planning to send carloads of fat hogs to fairs and stock shows, after which they are to be marketed cooperatively.

Other moving pictures being used to show the importance of increased food production show activities in the national forests, important sources of timber and water supply.

NOT ROOM FOR BOTH

"He is blind with prejudice or ignorance who does not now see that from the beginning of the war Germany contemplated an assault upon the United States after she had completed the destruction of France and England. Such a combat was inevitable sooner or later, for wide as the seas are that lie between and vast as are the unsettled spaces of the earth, there is not room enough on this little planet for two such antagonisms of political and moral purpose as German Allmacht and American independence."—Clarence Ousley, Assistant Secretary of Agriculture, in address at St. Louis.

NEW VARIETIES OF CHESTNUTS

Some very promising varieties of chestnuts have been developed by specialists of the United States Department of Agriculture. The new varieties are likely to be of considerable value as nut-producing trees because of their fruitfulness and precocity of bearing, as well as their evident measure of resistance to the chestnut-bark disease. In the collection of trees which have been under experimentation are about 1,500, representing both native and Asiatic varieties. Fifty per cent of these are hybrids. Observations on the hybrid chinquapins which were developed some years ago also are included in the nut investigations of the department, and the results are considered especially encouraging.

Four tons of shipping capacity are required to transport a soldier, and another ton is necessary for his equipment. In addition, it takes 50 pounds of ship capacity a day to keep him supplied with food, clothing, and ammunition.

NEW TERM OF SCHOOL

(Continued from Page 1)

ject to change either for a whole school or for separate grades if the first day's enrollment shows such change to be necessary.

Transfers

Children will not be permitted to attend school in a district other than that in which they reside except for good cause. Applications for Special Permits must be made to the Superintendent. Even where such permits are asked for parents are requested to send their children on the first day of the term to the school in whose district they reside. Transfers can be made only after the number enrolled in each grade has been ascertained.

Intermediate School

All seventh and eighth grade pupils in the Glendale City School District will attend the Intermediate school.

Doran Street School

Grades B1, A1, B2, A2, B3, A3. The district of this school is that part of the Glendale City School District enclosed by the following described line:

Starting at the intersection of Brand Blvd. and Second St., the line runs east on Second to Isabel, south on Isabel to Broadway, east on Broadway to Glendale Ave., north on Glendale Ave. to Third St., east on Third to Cedar St., north on Cedar to Oakwood Ave., west on Oakwood to the easterly prolongation of Burchett street, west on said prolongation to Brand Blvd., south on Brand to Second.

Children of the first three grades from Verdugo Canyon will also attend this school.

All district lines coincide with the middle of the street EXCEPT in Cedar St., where both sides of the street will be included in this district. Wherever the lines of this district overlap the lines of any other district, this will take precedence over the other as far as the first three grades are concerned.

Pacific Avenue School

Grades B1, A1, B2, A2, B3, A3, B4, A4, A5, A6. The district of this school is that part of the Glendale City School District enclosed by the following described line:

Starting at the intersection of the San Fernando Road and the Tropico city limits, the line runs east along said limits to Brand Blvd., north on Brand to Fifth St., west on Fifth to Central Ave., north on Central to Broadway, west on Broadway to the San Fernando Road, south on the San Fernando Road to the Tropico city limits.

All children in this district who will enter the B5 and B6 grades will attend the Colorado Blvd. school.

Colorado Boulevard School

All grades through the Sixth. The district of this school is all that part of the Glendale City School District enclosed by the following described line:

Starting at the intersection of Glendale Ave., and the Tropico City limits, the line runs west on said limits to Brand Blvd., north on Brand to Fifth St., west on Fifth to Central Ave., north on Central to Broadway, east on Broadway to Brand Blvd., north on Brand to Second St., east on Second to Louise, north on Louise to First, east on First to Isabel, south on Isabel to Fifth, east on Fifth to Glendale Ave., south on Glendale Ave. to Colorado Blvd., east on Colorado to Everett, south on Everett and the southerly prolongation thereof to the Tropico city limits, west on said limits to Glendale Ave.

Broadway School

All grades through the Sixth. The district of this school is that part of the Glendale City School District east and north of the following described line:

Starting at the intersection of the southerly prolongation of Everett St. and the Tropico city limits, the line runs north along the southerly prolongation of Everett St., and then in the same direction along Everett St. itself to Colorado Blvd., west on Colorado to Glendale Ave., north on Glendale Ave. to Fifth St., west on Fifth to Isabel, north on Isabel to First, west on First to Jackson, north on Jackson and the northerly prolongation thereof to the north boundary of the Glendale City School District.

Columbus Avenue School

All grades through the Sixth. The district of this school is that port of the Glendale City School District enclosed by the following described line:

Starting at the intersection of Broadway and the San Fernando Road, the line runs east on Broadway to Brand Blvd., north on Brand to Second, east on Second to Louise, north on Louise to First, east on First to Jackson, north on Jackson to the easterly prolongation of Burchett, west on said prolongation and on Burchett St. to the San Fernando road, south on the San Fernando Road to Broadway.

Central Avenue School

Grades B1, A1, B2, A2, B3, A3, B4, A4, A5, A6. The district of this school is all that part of the Glendale School District lying north of Burchett St., and the easterly and westerly prolongation thereof and west of the northerly prolongation of Jackson St. All children in this district who will enter the A5 or A6 grade will attend the Columbus Ave. School.

RICHARDSON D. WHITE,
Superintendent.

SPIRIT OF CHRIST TO BE MANIFEST IN THE WORLD

Rev. A. William Goetz, pastor of the Occult Science of Christ Church of Hurtt's Hall, Glendale, in speaking on the Coming Christ Sunday evening said in part:

"Let us not confuse the man Jesus with the term Christ. Christ was a title conferred upon Jesus by the Angel world and by those of the earth, because of His clear seeing. The word Christ means crystal seeing or crystal mind. He was so much in tune with God that He reflected every shadow of the Divine Will. The real second coming of Christ does not means Jesus but the coming of the Christ Spirit and we want to distinguish between the material and the spiritual kingdoms. Christ refused to accept the kingdom of this world even though it included all the kingdoms of the earth. Therefore Jesus's kingdom according to His own teachings was a spiritual kingdom, and in looking forward to the coming of Christ we look forward to a spiritual kingdom. In speaking of the sign of the son of man in the heavens the student of astrology will know that the sign of this age or Aquarius is the sign of man pouring from a pitcher the waters of life, showing the out pouring of truth from the kingdoms of the Heaven to the people of earth. Jesus's kingdom is not a temporal kingdom but an everlasting kingdom established by the teachings of the Christ Truth to men everywhere. This spiritual kingdom is in the hearts of men. This will be when men understand the teachings of Jesus for Jesus said the Father in Me and I in you or the unity of all mankind. He gave all the credit to the Father and the Spirit of Truth which dwells within. At the coming of the Christ the eyes of the people were opened to the angel world. At the dawn of brotherhood the angel world will be seen by men. Now the elect are those who seek to serve God of whatever church or creed they follow. At the time of His coming there will be weeping and gnashing of teeth. We find that the earth is filled with this today. Do not forget that the Master never claimed for Himself the ability to do anything that others could not do. He told His disciples these things that I do shall ye do also, and greater things than these shall ye do. When He said come unto me, He simply meant to come to His plane of thought. When He says in coming again I will bring you unto myself He spoke of His Spirit coming to the hearts of men for we recognize that Jesus Himself is a Spirit of marvelous love, Impersonal Love and Master Mind. We recognize the fact that Jesus the man can and does come near the earth in the spiritual body longing to do as he did in the past and raise the hearts of men to know the Father as he did when upon earth. Does it look reasonable for him now to set up a kingdom when he refused it before while he was here? Whenever the angel world and the Christ Spirit are acknowledged in the hearts of all men everyone will want to be Spiritualists then.

FREEDOM AGAIN DRAWS SWORD

"This is a sad business we are in, but that was a sad business in 1776. That was for the establishment of freedom; this is for the preservation of freedom. If we are worthy of the freedom our fathers won, we will not flinch from sacrifice to preserve it for our children. * *

"If they had failed through weakness of purpose or cowardice or hesitation, we would blush to remember them; if we fail through irresolution or by permitting sinister influences to divide and confuse us, the struggling democracies of the world and our own posterity will curse us."—Clarence Ousley, Assistant Secretary of Agriculture, in address at St. Louis.

DENMARK'S RESTAURANTS AND THEATRES CLOSED BY ILLUMINATION ORDERS

Theatres and restaurants in Denmark close at 10 p. m. to save lights. To save kerosene, which is sold at a price regulated by the Government at 72 cents a gallon, Greenland whale oil is being tried for lighting. It is estimated 200,000 acetylene lamps are now in process of manufacture.

The distillation of all kinds of alcohol except for industrial uses is prohibited. A large part of the available alcohol will be needed for use in the new incandescent lamps. It is estimated that 2,000 tons of grain will be saved by the new regulations.

"TAG-YOUR-SHOVEL-DAY"

Wednesday, January 30th, has been designated by Dr. Harry A. Garfield, United States Fuel Administrator, as national "Tag-Your-Shovel-Day." This day will directly impress upon the school children of this country the necessity for saving and conserving fuel of all sorts, particularly coal. On "Tag-Your-Shovel-Day" the school children of the United States will place upon all coal shovels tags specially prepared, which give specific directions and hints for the saving of coal. "Tag-Your-Shovel-Day" on January 30th becomes the children's Draft Day, the day of their enlistment in the world war in defense of their country, the day of their partnership in national ideals and in national duties. The Government is placing a trust in hands of the school girls and boys. It is relying upon them as an arm of the service, to become Little Missionaries of Thrift, to carry to their homes and to the homes of their neighbors the message "Save Coal and Other Fuel." Governor Stephens, the mayors of the principal cities, and prominent men all over the state will have their coal shovels publicly tagged by school children and it is expected that "Tag-Your-Shovel-Day" will be an important factor in the coal-saving campaign that is being carried on throughout the country.
